How to Publish Job Vacancies in 4 steps

Postdoc in Electrophysiology / Biotechnology

Description: Applications are invited for a post-doc position in electrophysiology as a part of our multidisciplinary project involving several laboratories (chemistry, biology, bio- & microelectronics and medicine) at the Universities of Bordeaux. The aim of the project is to exploit the electrical properties of islet cells for the further development of a biosensor. Basic development and proof of principle has been secured. The project is conducted in close collaboration with a microele...
